# RESEARCH & PRODUCT DEVELOPMENT

## 01. DESIGN

EVOL Technologies works closely with clients to design a product that is practical and meets their needs.

## 02. ENGINEERING

Our engineering team works together with product designers to create solutions that meet the requirements of our clients.

## 03. CONTROL APPLICATION

Our engineering team will test out and perform controlled application of solutions to ensure the final product meets all requirements and fits the client's needs.

## 04. PROTOTYPE

Final products are stress tested by our engineering team to ensure each function is working as intended and that they last the required lifespan.

## 05. MANUFACTURING

The final product design is ready to be manufactured and custom made with full QA/QC, and clients must do final product testing to ensure it meets their requirements before shipping out.

# INTEGRATED I.T. SOLUTIONS

## 01. WEB APPLICATION

We can help you create bespoke applications to reduce storage costs and move to cloud-hosted applications.

## 02. MOBILE APPLICATION

We provide intuitive, fast, creative and interactive mobile apps to grow brand engagement.

## 03. DESKTOP APPLICATION

We are passionate in moving business processes to digital solutions with more reliable desktop applications.

## 04. IOT APPLICATION

Broadband Internet is making it possible to create devices with Wi-Fi capabilities and sensors that automatically re-order supplies when they are low on supplies.

## 05. ARTIFICIAL INTELLIGENCE

Artificial Intelligence capabilities are being developed to help businesses adapt to Industry 4.0 and increase efficiency and productivity.

## 06. BUSINESS INTELLIGENCE

Data visualization provides an interactive experience to assist decision support systems with customer data and sales projections.

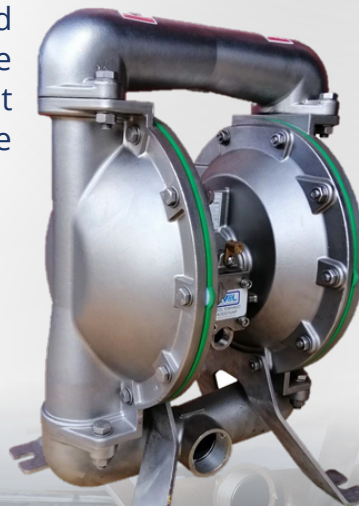

# EVOL PUMP SOLUTIONS

**Supported by a team of knowledgeable and experienced in-house engineers, we stand out from our competitors providing complete packaged system to a broad range of industrial needs.**

EVOL Technologies designs and manufactures five different series of customizable high quality pumps applicable for many applications including Oil & Gas, Petrochemical and other related industries. Recognizing our customers' needs for convenience and product performance, we focus on offering quality-assured yet cost-effective solutions to your difficulties.

We carry five main flagship series of comprehensive and reliable pumps, ranging from motor-driven pumps, pneumatic injection pumps, air operated double diaphragm pumps, to centrifugal pump and submersible drainage pump. All our pumps are designed to be compact in size with minimal weight and high flexibility, making them suitable for a wide range of applications.

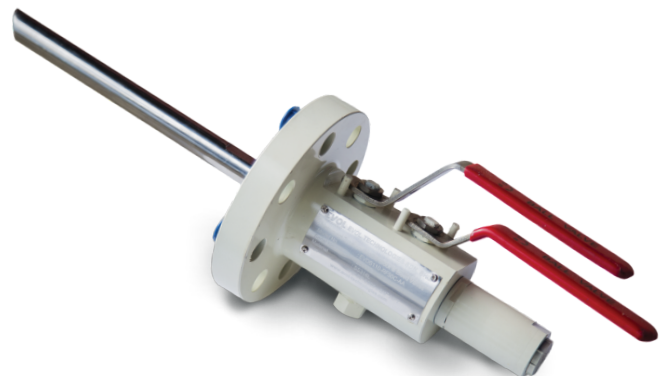

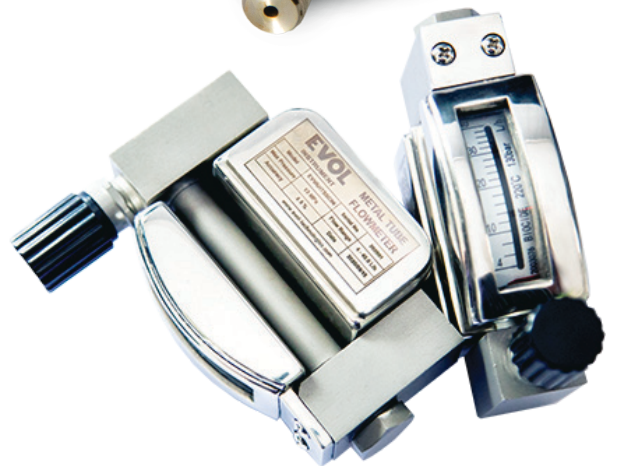

# EVOL INSTRUMENTS

**Each of our instruments can be custom-built to your specifications, ensuring that they will cover all your requirements with maximum productivity.**

EVOL Technologies has a comprehensive selection of equipment and instruments to meet your fluid solutions needs. All our instruments are self-designed, developed and manufactured. Customer satisfaction is our top priority. In line with this, we ensure that all products are tested and certified to meet all required standards before marketing them to our clients.

Each of our instruments can be custom-built to your specifications, ensuring that all your requirements and needs are met with maximum productivity.
